Subject: Call from Cheyenne River Enviro. Dir. re: DAPL inquiry

Good morning – I just received a call from Dave Nelson with Cheyenne River Sioux Tribe's Environmental department where he reported that he's receiving information that the Dakota Access Pipeline company is drilling near the Missouri river, with reports of discharging waste material in a nearby draw that leads to the river. Dave also reported that there are no containment ponds for this material.

I also told Dave that I would pass this information on, and I also recommended that he reach out to the USACE as well, especially if they're concerned about potential discharges into waterways.

Ex. 5 - Deliberative Process

Thank you! – Kim V.
